Our Partners

HAF's partners are critical in assisting with project design and implementation, often providing in-kind assistance, trained technicians, and other necessary expertise and resources to take a project from vision to reality. Our partners also link us to like-minded individuals, help us to raise funds, and do their part to spread the word about HAF's programs, projects, and events.

"Made in Morocco" Partners

HAF's "Made in Morocco" partners are committed to using local materials and talent to produce high quality products that respect both the environment and the people who create them. They partner with us on events, contribute in-kind services and products, and donate a percentage of their sales to HAF.
