CRANS
MONTANA
FORUM

Committed to a more Humane and Impartial World

The Crans Montana Forum started its activities in 1986 !

Since that very moment we organised numerous and prestigious activities around the World, providing Governments and Companies with a unique networking

caliber personalities who have trusted me.

Their aim was not to create an ordinary Organisation but a respected and relevant Institution committed to better international cooperation and to a more humane and impartial world.

Since 1986, we have greeted more than 120.000 delegates on the occasion of our events: hundreds of Heads of State and Government, thousands of Ministers, tens of thousands of Businesses !

The loyalty of our Participants, over such a long period of time, is proof of our credibility and effectiveness.

2016 is on its way and a new President of the Forum has just been appointed. He is unanimously welcomed by the friends of our Organisation. I am convinced that Pierre-Emmanuel Quirin will continue to embody the values of our Institution, for many years.

The Crans Montana Forum is unique and represents an unequalled opportunity for our century.

Regardless of the Forum's topics, even if somewhat distant from your direct activities, I invite you to join us.

Indeed, the added value of a participation to the Crans Montana Forum is to become part of a coherent group of decision-makers meticulously chosen for their importance and influence.

This is what you need to implement your strategies !

My experience has shown that the results will always be positive.

See you soon !
