Welcome to the COP of Action

The Paris Agreement was adopted in December 2015 at COP21.

To enter into force, at least 55 Parties to the Convention, accounting for at least 55 per cent of global greenhouse gas emissions were required to deposit their instruments of ratification, acceptance and approval with the United Nations, with the Agreement then entering into force 30 days later.

On October 5, less than 10 months following its adoption, the threshold for entry into force of the Paris Agreement was achieved, and even surpassed. This demonstrates an unprecedented commitment from countries across the globe to tackle climate change and forge a clear path to a brighter, more prosperous and resilient future.

Following the entry into force of the Paris Agreement on November 4, COP22 is hosting the first session of the Conference of the Parties serving as the meeting of the Parties to the Agreement (CMA 1), in conjunction with CMP12, the twelfth Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol.

COP22 will be an inclusive COP focused on the means to implement the Paris Agreement, linking Party and non-Party climate action, accelerating concrete initiatives and developing climate finance pathways for the world's most vulnerable countries to the impacts of climate change.

We have produced this guide to provide you with all of the information you will need to navigate the conference venue and participate in COP22.

Welcome to Marrakech and welcome to the COP of Action!

Salaheddine MEZOUAR
COP22 President

COP22

— Official Program —

	TIME	Plenary meetings and meetings of groups of the Convention and Protocol bodies	Mandated events and workshops
Monday, 7 November	10:00-12:00	COP22 opening plenary/ CMP12 opening plenary/Joint COP22 and CMP12 plenary (statements)	
	12:00-13:00	SBSTA opening plenary	
	Lunch		
	15:00-18:00	SBI/APA opening plenaries	
Tuesday, 8 November EarthInfo Day	10:00-13:00	Groups of the Convention and Protocol bodies	In-session workshop on the modalities for the accounting of financial resources provided and mobilized through public interventions in accordance with Article 9, paragraph 7, of the Paris Agreement

Global Climate Action Champions, Hakima El Haite (Morocco) and Laurence Tubiana (France) have set out their roadmap to mobilize and strengthen climate action between Party and non-Party stakeholders to achieve the goals under the Paris Agreement.

A key element of their plan consists of a series of thematic days and events during COP22, designed to actively engage stakeholders. The High-Level Event on Accelerating Climate Action will take place on November 17. The schedule of events is as follows:

Sunday	Monday		Tuesday			Wednesday				Thursday		Friday
13-Nov	14-Nov		15-Nov			16-Nov				17-Nov		18-Nov

Conference — and Side Events — Program

Blue Zone

Official side events

Official side events are a platform for admitted observer organizations, which have limited speaking opportunities in the formal negotiations. They will engage with Parties and other participants for knowledge-sharing, capacity-building, networking and exploring actionable options to address climate challenges.

UN agencies, admitted observer organizations and those Parties that partner with observers present their work or foster discussions on key issues, often engaging the audience in a Q&A session. Side events are 90 minutes in duration.

The official side event program for COP22/CMP12/CMA1 contains over 200 events focused on key issues. The full schedule is available here:
<http://cop22.ma>

The official side events at COP22/CMP12/CMA1 seek to showcase the theme «Accelerating implementation of the Paris Agreement» and are organized under three categories:

1. Enhancing ambition
2. Promoting implementation
3. Providing support

Thematic days

- Tuesday, 8 November 2016: EarthInfo Day
- Wednesday, 9 November 2016: Farmers' Day
- Thursday, 10 November 2016: Young and Future Generations Day
- Friday, 11 November 2016: BINGO Day
- Monday, 14 November 2016: Education Day
- Tuesday, 15 November 2016: Gender Day
- Wednesday, 16 November 2016: Africa Day
- Thursday, 17 November 2016: Climate Justice Day

Official exhibits

Exhibits serve as a platform for observer organizations and Parties to highlight diverse climate change issues at UNFCCC conferences and provide a meeting point for participants. They cover a wide variety of topics and are clustered by theme.

The full list of exhibits is available here:
http://unfccc.int/meetings/marrakech_nov_2016/

Morocco Pavilion

— Side Events —

The Morocco Pavilion Side Events are carried by different Moroccan institutions, in collaboration with domestic and international partners. They cover the major themes of the COP22. They will highlight Moroccan experiences and help launch new partnerships and initiatives for climate action.

Marrakech Summit — for Local & Regional Leaders —

November 14th - Palmeraie Golf Palace

The Kingdom of Morocco celebrates territorial climate diplomacy:

The Moroccan Association of Communal Council Presidents and the Association of Moroccan Regions, with major international networks of local and regional governments, will make the voices and proposals of global Mayors and Governors heard on the question of climate finance.

The Marrakech Summit for Local and Regional Leaders organized by the two Moroccan associations of Cities and Regions (AMPCC and ARM), is in line with Morocco's strong will to make this COP an international call to action.

The aim of this collective global enterprise is to include this event as a moment of truth for territorial climate diplomacy by demonstrating the continued "mobilization for action and impact" from local and regional governments and their networks following the First Summit of Local Elected Official in Paris in December 2015.

Territories: meeting needs, identifying potential, seizing opportunities

The Summit aims to communicate on the progress of networks, and on inspiring experiences of implementation by communities.
It aims to:

- Advocate stronger empowerment of local authorities (legislative and regulatory frameworks, identifying financial expertise)
- The emergence of new sources of funding, including direct access to funding from the Green Climate Fund, but also addressing the whole range of available financing mechanisms (local, regional, public and private, grant or loan capital market via green bonds or savings, etc.)
- Identify partnership opportunities with strong potential which local authorities aspire to for building new financing mobilization strategies, including at a local level and the improved involvement of territorial stakeholders (citizens, companies, investors).

Fez Climate — Conscience Summit —

The Fez Climate Conscience Summit

November 3rd – Fez Marriott Hotel

The Fez Climate Conscience Summit is an event that aims to mobilize the ethical, philosophical and spiritual leaders of different backgrounds and diverse sensibilities through intercultural and high-level inter-faith dialogue to support the fight against the effects of climate change, based on shared and common values, in accordance with the Royal Message delivered on the occasion of the meeting on “Religious Minorities Rights in Muslim Countries” held in Marrakech on the 25th of January 2016, and where His Majesty King Mohammed VI, may God assist him, declared: “We need these common values not only to get inspiration from the ideal of tolerance that they carry, but also to draw from them the necessary resources for a renewed construction of human beings”.

21

This event, organized by the Economic, Social and Environmental Council of the Kingdom of Morocco in collaboration with the Rabita Mohammadia of Oulemas, will be held in Fez on November 3rd, 2016 and follows the Summit of Consciousness held in Paris on July 21st, 2015.

The summit aspires to propose an approach to educate consciences, transmit intergenerational legacy and commit to the establishment of a common global awareness platform. It will aim to:

1. Develop the principles and roadmap for the implementation of a «Climate Awareness Platform» leading to a declaration of Fez;
2. Develop an initial «Theo Green Map»; a global, virtual, interactive map identifying theo-responsible actions and philosophical and religious experiences in favor of the environment;
3. Advocate in favor of the integration and sustainability of these tools by the Parties to awaken a shared environmental awareness in the fight against the effects of climate change.

Women Leaders — and The Global — Transformation Summit

Under the High Patronage of His Majesty the King Mohammed VI

November 16

In the context of the adoption of the United Nations Sustainable Development Goals and the historic Paris Climate Agreement at COP21, both followed by the perspective of COP22 in Marrakech, the Kingdom of Morocco is convening a worldwide summit on Women Leaders and Global Transformation needed to bring humanity on a low carbon economy trajectory.

Through an impressive gathering of active women leaders in different sectors from all horizons (business CEOs, City Mayors, NGO activists, Politicians, Scientists...) this unique Summit will be an opportunity to reiterate the new paradigm shift that is happening globally in the area of sustainable development, climate mitigation and adaptation due to solutions provided by women.

Women in different fields and across different realms deliver solutions to climate change and sustainable development and can be role models for other men and women. They are also a source of inspiration for women lacking access to information or the means for influencing development.

Millions of women today are marginalized yet can be real solution providers for sustainable development and climate change. We know women are more vulnerable to Climate change yet by working with them can be empowered to be part of the transformation towards low carbon solutions and a more equitable sustainable development.

Together women can pave the way towards change and be an example to the world by empowering and inspiring each other.

Objectives

The main objective of the summit is to show how women can be strong solution providers and how collaboration with other women and proactive men can enhance further sustainable development and decarbonization.

The Kingdom of Morocco would like to show that women can be proactive leaders taking their own and their children's future into their hand and bring concrete solutions to the table.

Two key axes will be developed:

1. Showcase women leaders across all spheres of influence who have succeeded in adapting and innovating in their businesses, governments, universities, communities and are providing low carbon and sustainable solutions towards economic development.
2. Illustrate solidarity between women globally mainly in three key areas:
 - a. Energy
 - b. Innovation
 - c. Adaptation

Outcome

It would be ideal to come out of the meeting with an enhanced understanding of leadership paradigms and solutions provided by women as well as coalesce around adaptation & mitigation projects in order to improve the daily life of women and create avenues for empowerment.

Request

Together we can launch the global climate women pact and ensure a commitment from women leaders to become actors of change.

Medical — Information —

Who to contact in case of medical emergency?

You have a medical emergency, wherever you are, you should contact at first

23

All the "COP 22" event benefits from medical coverage :

Continuity of care and first aid are available throughout the chain links of urgent extra-hospital medical care, covering the whole COP22 event;

Emergency Medical Assistance Service (SAMU-04) is the coordinator of extra-hospital interventions;

First aid is provided on-site at the fixed or mobile medical centers located in the Blue Zone and the Green Zone in Bab Ighli, at the accommodation sites and also during tours in Marrakech or to other cities;

Emergency Medical Assistance Service (SAMU) can be contacted for transport to hospital for a check-up or hospitalization;

40 SMUR ambulances and 2 SMUR helicopters are available to respond to medical emergencies;

Mobilization of hospitals for admissions to hospital services offering multidisciplinary care that complies with university centers of healthcare standards;

Hospitals with means enabling to combine round-the-clock medical-surgical services with interventional cardiology and medical imaging capabilities;

A special COP22 Epidemic Intelligence Unit is dedicated to the daily monitoring and data analysis to prevent and detect public health emergencies.

Restauration — at Bab Ighli —

Organization and Logistics

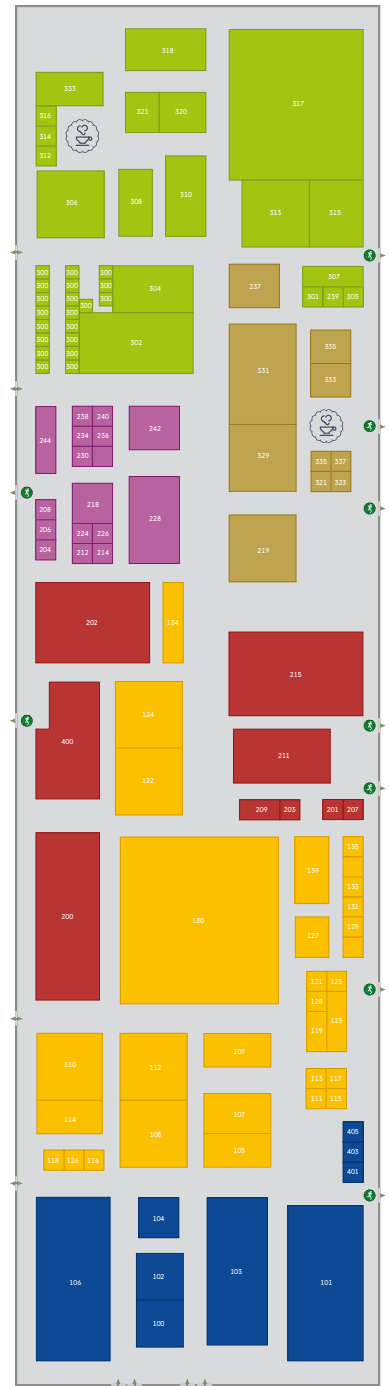

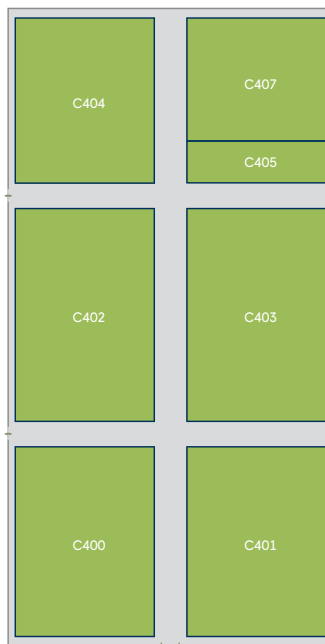

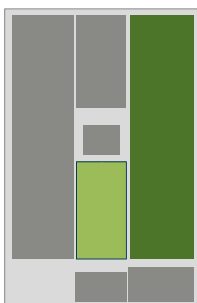

The side events in the Green Zone will take place in the area located between the Civil Society and Innovation Zones. Nine rooms are available for side events. These rooms are seated theatre style, equipped with simultaneous translation booths.

Innovation & Solutions Zone Plan

Innovation and Solutions Zone

Spanning over 12,000 m², the Innovation and Solutions Zone will showcase innovative solutions proposed by private and public sector actors, as well as universities and research centers. Its main objective is to raise awareness amongst the general public, about climate issues as well as mitigation and adaption questions.

- C401 ONDE

Services for — Media at COP22 —

Media facilities in the Blue Zone

The Media Centre including an International Broadcast Centre is established in the Blue Zone, providing facilities to meet the needs of Television and Radio Broadcasters and Press News Agencies.

The Media Centre comprises two halls:

- Hall 1: TV and Radio broadcasts, the MCR, open-plan workstations and an area of 100 writing press desks.
- Hall 2: 500 writing press desks for journalists, reporters and correspondents.

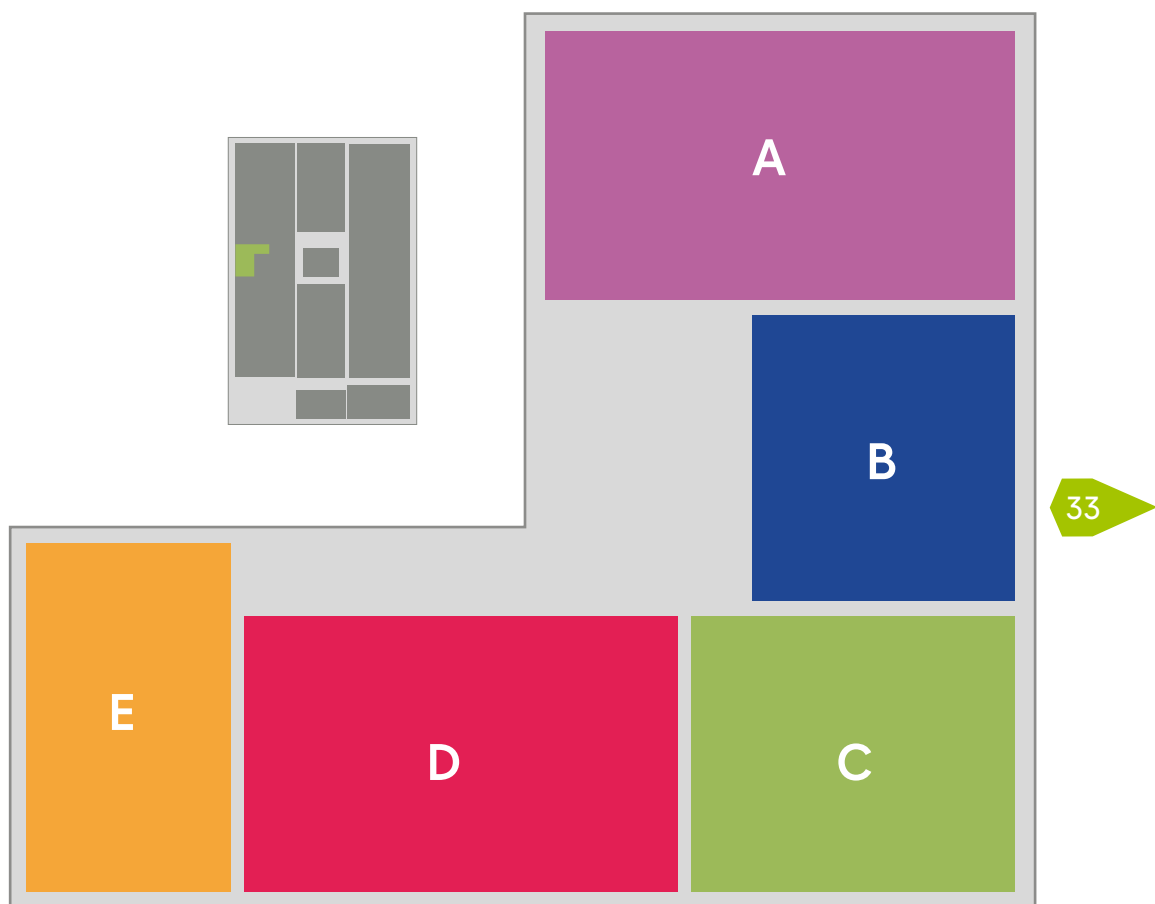

The Plenaries and Press Conference Rooms are all within a short walking distance of the Media Centre.

Media facilities in the Green Zone

In the Green Zone, the COP22 steering committee will provide a dedicated area to journalists: “Dar Media”. It consists of a workspace with numerous workstations, a debate area, a fully equipped conference room and a newspaper kiosk where media partners can display their productions.

Additionally, a Digital Media Zone (DMZ) hosted by PVBLC Foundation is also set up in Dar Media. The DMZ works as a “social media news room” facilitating dialogue among conference participants through panel discussions, announcements of initiatives and projects and live interaction and reporting from COP22.

Plan — *Dar Media* —

- AREA A | PRESS CONFERENCE ROOM
- AREA B | RADIO STUDIOS
- AREA C | DEBATE ZONE / DMZ
- AREA D | MEETINGS & INTERVIEWS SPACES
- AREA E | WELCOME DESK

Useful Information — about Morocco and — Marrakech

• Morocco

Surface Area: 710,850 sq. km

Capital: Rabat

Population: 33.8 million inhabitants (2014 census)

Administrative Organization: 12 regions, 62 provinces, 13 prefectures

• Marrakech

Surface Area: 40,345 sq. km / 5.67% of Morocco

Population: 4,520,569 inhabitants / 11.6% of the national population

Population of the city of Marrakech: 928,850 (2014 census)

Time zone:

Morocco time zone is UTC/GMT time.

Morocco resumes Daylight Saving Time by adding 1 hour on GMT time from March to October.

Telephone:

Country Code: + 212

Marrakech City Code: + 212 (0) 524

Emergency phone numbers:

Police: 190

Fire Brigade: 150

Directory enquiries: 160

Road safety services: 177

Languages, culture and religions

Morocco has two official languages: Arabic and Amazigh (Berber). Education and administration is conducted in classical Arabic and in French while everyday conversation is in the local Arabic dialect, "darija". Berber/Amazigh is spoken mainly in the Atlas mountains, Souss and Rif regions.

French and Spanish are the two languages spoken by most Moroccans.

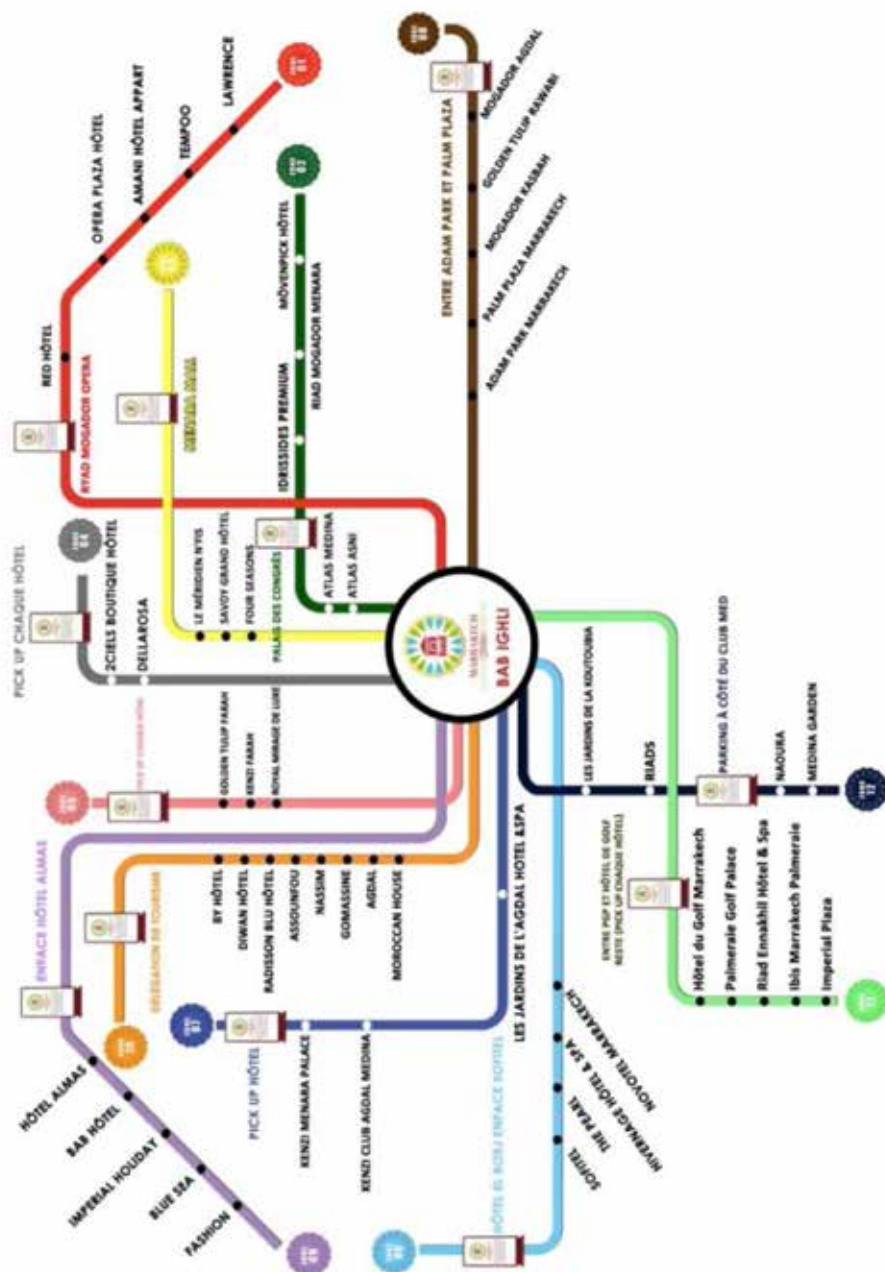

English is also commonly spoken in the country's international cities such as Marrakech, Rabat, Casablanca, Agadir and Tangier.

Islam is the Kingdom's main religion. However, Jewish and Christian communities practice their religion freely. In a city like Marrakech, mosques, synagogues and churches exist side by side throughout the city's various neighbourhoods.

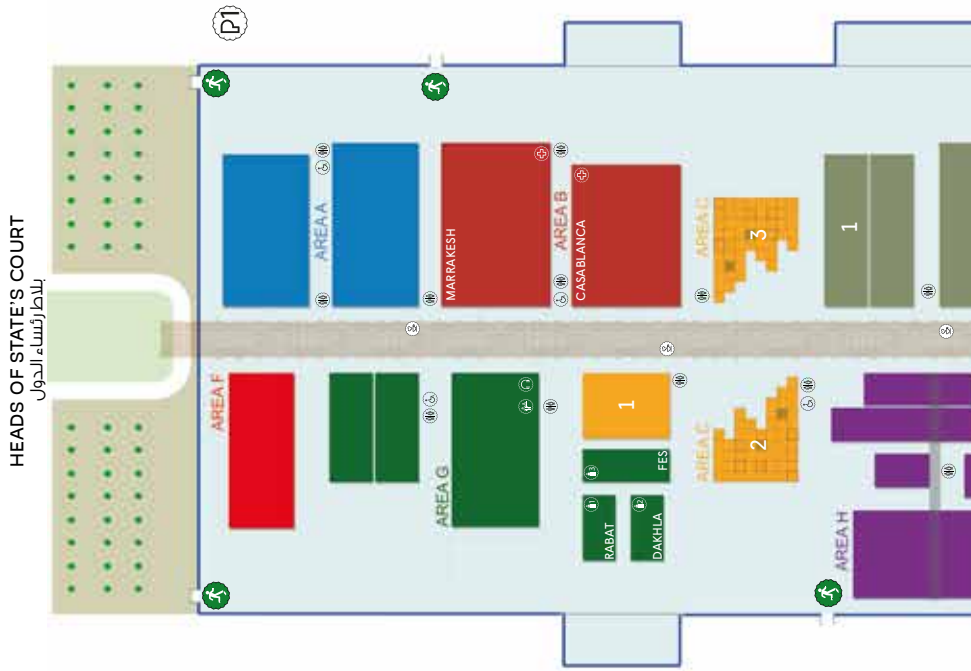

Vaccinations

No vaccination certificate is required but it is recommended to protect against Hepatitis A & B as well as Typhoid.
