JSC "Zarubezhgeologia" (Moscow, the enterprise is part of the ROSGEO state holding) has concluded the Cooperation Agreement with the National Hydrocarbon and Mines Agency of the Kingdom of Morocco. The document was signed during the visit of the Chairman of the Government of the Russian Federation Dmitry Medvedev to the African state.

The agreement embraces the establishment of mutually beneficial long-term cooperation of the parties in the field of geological prospecting works for solid minerals, hydrocarbon raw materials, groundwater, and their production in the territory of the Kingdom and neighboring countries.

ROSGEO is a Russian multi-industry geological holding company, which offers a full range of geological exploration services from regional surveys to stratigraphic drilling and subsoil monitoring. The holding company boasts unique expertise, particularly in marine geology and shelf operations.

ROSGEO was established by Decree No. 957 of the President of the Russian Federation dated 15 July 2011 on the basis of Tsentrgeologia, one of the oldest exploration companies in Russia. ROSGEO is a fully state-owned company.

The enterprises within the holding company operate in all eight federal districts of Russia. ROSGEO includes 53 enterprises located across the country. A total of more than 1,000 fields and deposits have been discovered by the holding's companies, including major hydrocarbon and solid mineral deposits and fields such as the Astrakhan field (2.5 trillion cubic meters of natural gas), the Tengiz field (3.1 billion tonnes of oil), the Kovykta field (1.9 trillion cubic meters of natural gas), the Sukhoi Log deposit (about 2,000 tonnes of gold), the Kursk Magnetic Anomaly, and many others.

ROSGEO's subsidiaries have rich experience in implementing projects abroad: dozens of new fields and deposits have been discovered in Asia, Europe, Africa, and Latin America.
