Ms Sara Eyckmans  
Western Sahara Resource Watch  
Email: [coordinator@wsrw.org](mailto:coordinator@wsrw.org)

28 March 2018

Dear Ms Eyckmans

I refer to your email of 6 March 2018. Thank you for again giving us the opportunity to comment on your forthcoming annual report.

In response to the questions raised in your email, I can confirm there were no shipments of phosphate rock from Western Sahara by Lifosa AB in 2017.

As was previously communicated to you, EuroChem continues to work toward raw material self-sufficiency. Our subsidiaries in Russia and Kazakhstan, two sources of phosphate rock owned by the Group, are intended to help us eventually become self-sufficient in the production of phosphate rock. While we continue to make progress toward this goal we continue to need to purchase supplies of phosphate rock from a number of third parties.

We have no plans to purchase supplies from Western Sahara.

Contractual arrangements we make with our suppliers are confidential and commercially sensitive so we are not able to share them with third parties.

EuroChem and its subsidiary companies expect all their suppliers to act responsibly and we adhere to applicable laws.

Yours sincerely
